Crystallo™ - BGD36CFG-1SB

Napoleon® is proud to announce the new SAFETY BARRIER APPROVED Crystallo™ - direct vent gas fireplace. The Crystallo™ will now only be available with the diamond dust convex surround(S36CVPSB). The Crystallo™ is no longer compatible with a blower and the lower trim for the convex surround (CFT36CV) has been modified to accommodate the new barrier.

BGD36CFG-1SB

New code - same great features!

- Clear CRYSTALLINE™ ember bed sparkles with modern elegance
- LED lights transition through the RGB colour spectrum providing a multitude of colors (can be set to color of choice including white)
- Top or rear vent design allows for versatile installation options
- 4" & 7" direct venting
- MIRRO-FLAME™ Porcelain Reflective Radiant Panels come standard with the unit and echo flames and crystal reflections throughout the firebox
- Optional convex surround in diamond dust finish
- Optional convenient remotes available

S36CVPSB
Diamond Dust Convex Surround

A new requirement was added to the Test Standards for Vented Gas Fireplaces (ANSI Z21.50 and CSA 2.22) and Vented Gas Fireplace Heaters (ANSI Z21.88 and CSA 2.32). This change will affect every vented gas fireplace manufacturer and their customers (see announcement sent out August 30th, 2013 for more information).

This revised test standard states that all vented gas fireplaces manufactured in Canada and the United States after January 1st 2015 **MUST** include a barrier to prevent children and other at risk persons from coming into direct contact with the hot glass fronts of these fireplaces. Any vented gas fireplaces manufactured before that date can still be sold after January 1st, 2015 without providing a barrier. This includes existing inventory in warehouses.

For more information regarding the new vented gas fireplace barrier requirements, visit the Hearth Patio and Barbecue Association's website at www.hpba.org.

Consult your owner's manual for complete installation instructions, accurate framing dimensions and proper clearances to combustible material. Check all local and national building codes and gas regulations. All specifications are subject to change without prior notice due to on-going product improvements. Products may not be exactly as shown. Napoleon® is a registered trademark of Wolf Steel Ltd. © Wolf Steel Ltd.
